## **PRESIDENT'S**

The weather has turned nice, the sand is off the streets, and out come the cars!

With a heavy heart, we must say goodbye to one of our club members – Ron Hendrickson. Ron was so excited to earn his 300 point judging level at last year's national convention in Kansas City. He passed away last month at his lake home.

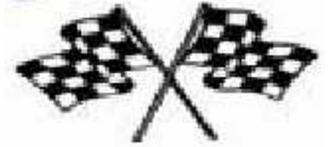

We added a spring judging event this past month, where we judged six nice cars. It was held at Kiss's Classic Cars in South St. Paul, which was a great place to hold a meet. Our annual judging event will take place August 15 at Steve Hendrickson's in Long Lake.

A BIG thanks and goodbye to Val Crosby, our long-term tabulator. For the last time, Val worked at our spring judging meet and helped train in her replacements.

We have several exciting things planned for this summer. Watch for news about upcoming activities.

## MEMBERSHIP UPDATE

Our chapter has added eight new members since our last newsletter. We now have 128 members. We also set up an NCRS booth at the Hastings Auto Show and had several people stop by and take home information about the NCRS and our chapter. Our new members are:

**Peter Jungenberg** resides in Menomonie, WI and has two Corvettes, a '54 and an '87. Peter attended our chapter judging meet and met several of our members.

**Troy Westerlund** lives in Blaine, MN and he owns a '65 Corvette. He found out about us via google and the internet.

**Deanna Haler** is a resident of Hastings, MN and she is the sister of Larry and Terry Serres of our chapter. Deanna has a '71 big block convertible, an '81 that she would like to pursue the McLellan Award and her driver, an '05 convertible.

**Tim Wier** lives in Inver Grove Heights, MN and found out about our chapter through the NCRS website. Tim owns a '60 Corvette. In the "it's a small world category," I happen to know Tim's brother Kevin who lived next door to my parents.

**David Edmeyer** resides in Mendota Heights, MN and he is the proud owner of a '69 coupe with the 427 engine. I have been trying to get Dave to join our chapter for over a year and finally persuaded him to join with a little arm twisting from Cary Kissner. Dave, I hope your arm is feeling better!! Dave attended our chapter judging meet in May.

**Len Kaufer** is another resident of Hastings, MN who I met at our judging meet and Len also attended our road tour down to the Hastings Car Show. Len has a gorgeous '68 British Green convertible, an '87 coupe and an '08 coupe that he took delivery on through the Corvette Museum.

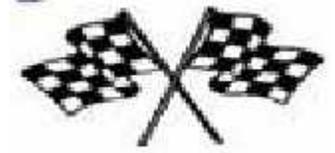

**Jim Keck** lives in the beautiful area of Okoboji, IA. Jim is the original owner of his 1970 big block 454 that he had judged at our chapter meet.

**Van Mattson** was invited to our chapter judging meet by Mike Kittle to find out about the NCRS judging process. Van lives in Blaine, MN and has a 1980 Corvette that is in pieces right now, but hopes to start putting back together soon.

Welcome to all our new members and we look forward to seeing you at an upcoming event.

## April Judging School/Tech Session

I would like to extend a warm North Central Chapter thank you to the host of our Judging School / Tech Session, Alden Miles. We had 25 people turn out for the combined morning of activities. As you can see from the photos, Alden has a great shop and had the frame and motor from the '58 Corvette on display for everyone to see. We started off the morning with a brief overview of what Alden's process is with the car. Then, some members helped Alden with the installation of the rebound straps on the rear suspension. The rivets were TOUGH to get in, for sure. After a while working on that, we switched over to the Judging School portion of the day. We started by reviewing some basics around filling out a judging sheet as a Chapter Judge. We then moved into looking at the front suspension and mock judging it. After that, we switched over to looking at the engine and mock judging that. Overall, Alden has done a wonderful job with the restoration of the car thus far. A great deal of attention to detail has been made and it shows in every part we looked at. Nice work Alden! We look forward to seeing the car on the judging field at some future NCRS event.

## May Judging at Kiss's

From the photos below, you can see that we had a very successful first Chapter Meet of 2015. This year, our Chapter has decided to support TWO Judging Meets. I would like to thank all of the hard working tabulators and judges for all of their efforts. This May, we judged 6 cars, all C3s. I am told this is the first time in the history of the Chapter that all judged cars were C3s. Here are the results from the meet.

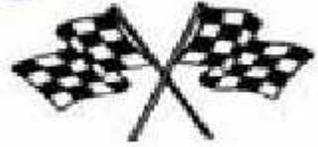

Mike Kittle - 1968 Corvette Bronze Convertible - Second Flight  
Dennis Gabriel - 1968 - LeMans Blue Coupe - Second Flight  
Bill Neumiller - 1969 - Cortez Silver Convertible - Top Flight  
Jim Keck - 1970 - Marlboro Maroon Coupe - Second Flight  
Bob Schroeder - 1971- Steel Cities Grey Coupe - Top Flight  
Tim DeAtley - 1981 - Red Coupe - Top Flight  
Will Zierhut - 1969 - Bowtie Display  
Bryan Parker - 1979 - Sportsman  
Mike Meirovitz - 1980 - Sportsman  
Ken Enstrom - 2000 - Sportsman

Don't forget to sign up for the [August 15th](#) Chapter Meet to help judge! We already have a few cars signed up and are always looking for more judges. Take care and see you at the next Chapter event!

## 1956-57 Goodyear Manufactured Body Panels Revisited

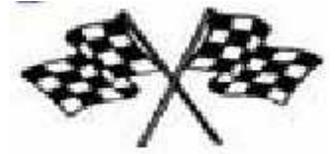

By Mark Swanson

An earlier article by Jimmy Blakely was written in the Restorer many years ago regarding Goodyear body panels that were manufactured for Corvettes in 1956. Essentially, Goodyear was very eager to get some of the Corvette body panel business for the 1956 Corvettes. With their very low bid on the front upper and body rear upper upper panels they lost money; so they asked to decline from the business for the next model year. Subsequently, MFG (Molded Fiber Glass Companies) produced those body panels. Jimmy Blakely's 1956 Corvette VIN was 1792; that identified the blue and yellow Goodyear sticker on the backside of his nose panel. Jimmy had found a couple of owners that had this Goodyear sticker on either the backside of the nose or the backside of the fuel filler cavity. I have owned a 1956 Corvette, VIN 4200, for many years; and I have a Goodyear sticker both on the backside of the nose and the backside of the fuel filler cavity. This shows that the Goodyear body panels made it almost to the end of the 1956 production run. Enclosed are pictures of the two Goodyear stickers on my 1956 Corvette body panels.
